Fancort specializes in small bench air presses for light assembly applications with pressure requirements from 400 lbs to 5 tons. All the presses are delivered "ready to run." and are designed with high functionality, ergonomics and aesthetics that you will fit into any production area. Air Press customization is also available and for integrators we can supply component parts such as press frame and cylinder. We also, now offer a computer-controlled Servopress for very critical assembly and inspection applications with pressure requirements from 50 kgf to 8,000 kgf.
